126 East Ash Street / Springfield, Illinois / 62704-4766

January 10, 2013

Mr. Jason McMahon
Progressive Solutions Corporation
2848 Corporate Parkway
Algonquin, Illinois 60102

Dear Mr. McMahon:

The Bureau of Materials and Physical Research has tested the product, Kleen Kote 108, submitted by your company for use as an asphalt release agent for vehicles transporting hot-mix asphalt (HMA) mixtures for Illinois paving projects.

This release agent does not cause any adverse effect to the mixture. Therefore, we are approving Kleen Kote 108 as an asphalt release agent for vehicles transporting HMA mixtures for Illinois projects as required by Article 1030.08 of the January 1, 2012 Illinois Department of Transportation *Standard Specifications for Road and Bridge Construction*. This product must be re-approved for use by the start of the 2018 Construction season.

In the event changes are made in company ownership, company name, trade name, or chemical composition, this approval is void and the product shall be re-submitted for approval.

If we may be of any further assistance, please contact Mr. Joe Rechner of this office at (217) 785-7217.

Sincerely,

David L. Lippert, P.E.
Engineer of Materials
and Physical Research

By:

Matthew W. Mueller, P.E.
Engineer of Tests

PLEASE NOTE:

KLEEN KOTE 108 is Ready-to-use.

If you purchase KLEEN KOTE 100 Concentrate, it must be pre-mixed prior to use on the job site at a ratio of 1 part KLEEN KOTE to 8 parts WATER for this approval to be valid. Please only keep pre-mixed product on the jobsite.

For questions regarding this approval, please call 800.801.7832 - 847.639.7272 or via email at: support@4progressive.com
