

KLEEN KOTE 108 - ASPHALT RELEASE

KLEEN KOTE 108 Asphalt Release is a biodegradable, water-based release agent. Unlike petroleum or vegetable oil based products which dissolve and destroy paved surfaces, KK108 creates a thin, colorless barrier between the asphalt and equipment surface. Formulated with a corrosion inhibitor, KK108 protects the surface while creating a clean release of asphalt materials from equipment, vehicles, truck beds, pavers, machines, and rollers without an adverse effect to the asphalt.

BENEFITS

- Biodegradable, water-based, low-odor
- Does not contain any solvents, silicones or phosphates
- Low V.O.C.--17 g/L
- Safe for use on all types of surfaces
- No special equipment or clothing required
- Safe for all types of asphalt mixes
- Won't rinse off in rain, protects against corrosion

AVAILABLE SIZES:

- 5 gallon pail
- 55 gallon drum
- 275 gallon tote*

**totes are reusable*

EFFECTIVE ON:

- Dump beds
- Hauling trucks
- Conveyor systems
- Belting systems
- Silos
- Drag slats
- Pneumatic tire rollers
- Steel rollers
- Pavers
- Machines
- Asphalt material handling equipment & more
