

KLEEN KOTE 111 - BOND BREAKER

Known for producing a clean and positive release, KK111 Bond Breaker is a ready-to-use, reactive barrier for tilt up panels. It has been proven to be one of the most effective AND eco-friendly products available. KK111 is non-staining, non-dusting, non-toxic, low V.O.C. and does not contain silicones, solvents or phosphates. It is fast drying and will not rinse off in the rain*, making it one of the most durable, safe and cost effective bond breakers in the industry.

**KK111 must turn from white to clear PRIOR to exposure to rain in order to be effective.*

BENEFITS

- Easy to use--no measuring and mixing, KK111 is ready to use!*
- Produces uniform panel surfaces
- Creates a surface ready for paint, sealer and adhesives
- Minimizes panel surface defects and associated patching
- Prevents Osmotic Effect
- Non-staining, non-dusting
