

## KLEEN KOTE 111 - CONCRETE FORM RELEASE

KLEEN KOTE 111 has been the premier concrete form release for over 17 years. Designed for porous forms, this ready-to-use, eco-friendly release agent does not require any measuring/mixing, special equipment, clothing or tools. It is water-based, low V.O.C. (15 g/L) and does not contain any silicones, solvents or phosphates. Depositing a very thin film, KK111 creates a virtually non-stick surface that is non-dusting, non-staining to provide an excellent finished surface ready to be stained or painted if required. KK111 will not rinse off in rain or incimate weather\*, making it one of the most durable, safe and cost effective form releases to use!

*\*KK111 must flash off BEFORE exposed to rain or incimate weather to be effective.*

### BENEFITS

- Easy to use--no measuring or mixing, ready to use!
- Safe for employees--no special equipment or clothing required
- 100% Eco-friendly--non-toxic, bio-degradable, water-soluble, low-odor
