

**GENERAL INSTRUCTIONS FOR KLEEN KOTE™ 108 EQUIPMENT PROTECTION**

REV. 022513

**General Instructions for KLEEN KOTE™ 108 Equipment Protection**

Call (800) 801.7832 or visit [www.4progressive.com](http://www.4progressive.com) for further information, detailed instructions, MSD sheets or special assistance.

**SURFACE/EQUIPMENT PREPARATION**

Clean all application equipment and dispensing containers prior to using/dispensing KLEEN KOTE. For best results, clean the application surface and remove all previous release agents prior to applying KLEEN KOTE to eliminate any adverse reaction between KLEEN KOTE and the former release agent. In freezing weather, the surface must be warmed indoors prior to applying KLEEN KOTE.

**APPLICATION**

KLEEN KOTE may be applied at any time. The surface does not need to be dry however the product CANNOT be applied in rain, snow, or over ice. For asphalt and concrete hauling equipment: Spray KK 108 over the entire bed before EVERY load and before you put the truck away at night and allow it to turn from white to clear prior to use. For mud/snow/salt spreading, removal and hauling equipment: Warm surface indoors, spray KK 108 once a day and allow to it to turn from white to clear prior to your first use. For all equipment, tools and vehicles: Spray on KK 108 and let it turn from white to clear. KLEEN KOTE may be applied to the cab, wheels and undercarriage to prevent mud, snow, salt and debris from sticking and to prevent corrosion.

**COVERAGE RATES**

1 gallon (3.78 liters) of KLEEN KOTE will cover approx. 1,000 - 2,000 sq. feet (185 sq. meters) depending on the surface type being treated. Spray on for best performance and ease of application.

**IMPORTANT INFORMATION**

Never dispense KLEEN KOTE in a drum or container previously used to store acid. Do not use an applicator or sprayer used for acid. The acid residue cannot be removed from the drum, container or applicator and will cause KLEEN KOTE to separate. Harsh chemicals are not needed to remove KLEEN KOTE. Soap and water can be used when required. Reapply KLEEN KOTE after every use and after every wash. KLEEN KOTE can be applied to damp surfaces but CANNOT be applied in rainy conditions.

***PREVENT KLEEN KOTE FROM FREEZING!  
DO NOT MIX WITH OTHER RELEASE AGENTS OR CHEMICALS!***

**FIRST AID PROCEDURES**

If contact with eyes occurs, immediately flush with water. If swallowed, do NOT induce vomiting. In either case, seek medical attention immediately. Additional information is available on the MSD sheet.

**WARNINGS**

Please keep this and all chemicals out of reach of children! Use this product only as directed. Non-stick product may cause slipperiness on vehicle controls and surfaces. Avoid spraying on braking surfaces where slipperiness may cause a loss of control.
