

GENERAL INSTRUCTIONS FOR KLEEN KOTE™ 115 FORM RELEASE

REV. 022513

GENERAL INSTRUCTIONS FOR KLEEN KOTE™ 115 FORM RELEASE

Call (800) 801.7832 or visit www.4progressive.com for further information, detailed instructions, MSD sheets or special assistance.

SURFACE/EQUIPMENT PREPARATION

Clean all application equipment and dispensing containers prior to using/dispensing KLEEN KOTE. If your forms have fresh oil or other release agents already applied, you must cast off the previously applied form release agent prior to applying KLEEN KOTE. For best results, remove as much of the previous form release as possible to eliminate any adverse reaction between KLEEN KOTE and the former release agent.

APPLICATION

KLEEN KOTE may be applied at any time. The surface does not need to be dry however the product CANNOT be applied in the rain. Spray, brush or dip surface with KLEEN KOTE and let the product change from white to clear before using. If KLEEN KOTE freezes on the surface you are treating, it will still work. Reapply after each use.

COVERAGE RATES

1 gallon (3.78 liters) of KLEEN KOTE will cover approx. 1,000 - 2,000 sq. feet (185 sq. meters) depending on the surface type being treated. Spray on for best performance and ease of application.

IMPORTANT INFORMATION

Never dispense KLEEN KOTE in a drum or container previously used to store acid. Do not use an applicator or sprayer used for acid. The acid residue cannot be removed from the drum, container or applicator and will cause KLEEN KOTE to separate.

Harsh chemicals are not needed to remove KLEEN KOTE. Soap and water can be used when required. Reapply KLEEN KOTE after every use and after every wash. KLEEN KOTE can be applied to a damp surface but CANNOT be applied in rainy conditions.

***PROTECT KLEEN KOTE FROM FREEZING!
DO NOT MIX WITH OTHER RELEASE AGENTS OR CHEMICALS!***

FIRST AID PROCEDURES

If contact with eyes occurs, immediately flush with water. If swallowed, do NOT induce vomiting. In either case seek medical attention immediately. Additional information is available on the MSD Sheet.

WARNINGS

Please keep this and all chemicals out of reach of children! Use this product only as directed, Non-stick product may cause slipperiness on vehicle controls and surfaces. Avoid spraying on braking surfaces where slipperiness may cause a loss of control.
