KLEEN KOTE 300

Agriculture Solutions

THE KLEEN KOTE ADVANTAGE

KLEEN KOTE is a biodegradable protection agent formulated with corrosion-inhibitors to withstand the demands of the job. When mixed, KLEEN KOTE creates a thin, colorless barrier on the surface of the equipment or tools. Designed for use on all types of surfaces, it prevents buildup, revives and brightens paint and protects against the threat of corrosion. Protect and preserve your equipment and tools AND extend its useful life during use, storage, transit and seasonal lay-ups. This product is non-staining, non-toxic and won't contaminate the ground or agricultural products, making it the environmentally-safe choice in protection.

Proven Protection Solution

Originally designed for the construction industry, KLEEN KOTE has now been field-tested and proven successful in the agriculture market. It works by penetrating into the cracks and pores of the surface and filling them in—preventing buildup of fertilizers, debris, dirt, mud, salt and diesel exhaust as well as corrosion caused by use, the environment and storage.

KLEEN KOTE also eliminates the need for harsh soaps, detergents, wax or rubbing compounds. It brightens and revives old, faded paint; it preserves new paint and is safe for use on all surfaces including electrical controls and wiring.

Available Sizes:

- 1 gallon
- 4-1 gallon case
- 3.5 gallon
- 4.5 gallon
- 5 gallon
- 55 gallon
- 275 gallon tote

*KLEEN KOTE cannot be applied in the rain, snow or ice & must flash off before exposed to rain, snow or ice.

KLEEN KOTE Works To:

- Repel: Fertilizer, Debris, Dirt, Mud, salt and diesel exhaust
- Revive/Brighten Paint on Antique Equipment -- Protect/Preserve New Paint
- Prevent Corrosion to Equipment & Tools
- Prevent Sticking/Buildup on Hauling & Spreading Equipment

**CERTIFIED BIODEGRADABLE
AND LOW V.O.C. 13-17 g/L**

Easy and Safe To Use

- ☑ Just add 1/2 the required amount of water. the required amount of KLEEN KOTE, add remaining water and it is ready to use.
- ☑ Safe for use on all surface types: wood, metal, plastic, foam, rubber, glass, motors, electrical wiring.
- ☑ It is not harmful to the touch, requiring NO special equipment, clothing or tools for handling, application or storage.

Environmentally-Friendly

- ☑ KLEEN KOTE is free of any silicones, phosphates or solvents.
- ☑ Certified biodegradable, water-based and non-staining.
- ☑ It will not contaminate the treated surface or any untreated surface including the ground and agricultural products. Ships in concentrate form to reduce packaging and transportation waste.

Economical

- ☑ Fully water-adjustable, allowing for various types of applications.
- ☑ The concentrate reduces costs--allowing you to mix on an as-needed basis, 5 gallons of concentrate will make 60 gallons of product
- ☑ at a ratio of 11 to 1.

Durable Protectant

- ☑ KLEEN KOTE will not rinse off in rain* and It withstands the severity of the environmental conditions, the demands of use in all types of weather AND holds up for the duration of exposure.

Extension of Product Life

- ☑ It protects and preserves against the potential threats caused by atmospheric damage and corrosion, corrosive environments and contaminants.
- ☑ KLEEN KOTE brightens and revives paint on old/antique equipment and protects the paint of new equipment.

REAL PUMP POWER SPRAYING SYSTEM

Agriculture Solutions

THE REAL PUMP ADVANTAGE

The REAL PUMP is the only power spraying system on the market designed to be tough enough to replace gas engine power sprayers and easy enough on the wallet to replace pump-up can sprayers. It can easily spray from any container including 1, 5, 55 or 275 gallon sizes. Also, attach any standard garden hose to spray water, extend the suction line, or flush the unit clean.

Designed To Spray

- Stains
- Deck Sealers & Cleaners
- Bleach Solutions
- Acids (special wand required)
- Fertilizers
- Pesticides
- Herbicides
- Cleaners
- Concrete Sealers
- Form Oils & Other Release Agents
- Curing Compounds*
- Many other products

*Includes white wax cures, high viscosity and high solids products. Product recirculator option available.

Portable, Easy to Use and Versatile

- The entire unit is self-contained and weighs only 45lbs., allowing one person to easily move the unit from job to job.
- Comes with 100 ft. of 3/8" hose and hose extension kits are available for up to an additional 100 ft. so you may never have to unload or move the product you are spraying from your vehicle.
- It can spray high viscosity and high solids products and will not separate water-based products as roller pumps can.
- Use the available pressure activated re-circulator to circulate products that need continual mixing.

Easy To Clean

- Open flow quick connect fittings allow for circulation, and the pump has the capability to purge excess contents out of the unit—both make for easy cleaning.
- The REAL PUMP re-circulates cleaning solutions for easy cleaning.

Reliable

The REAL PUMP has a solid proven track record since 1996. That's over 17 years WITHOUT ANY RETURNS!

Reduces Labor Costs

- Saves time by eliminating the need to stop spraying and pump up or refill your traditional can sprayer.
- Eliminates the need to stop and refuel your gas engine powered sprayer.
- Reduces time by easily spraying enough product to cover 3,600 sq. ft. in about 5 minutes at approx. 75 psi.
- It self-adjusts to the viscosity of the product being sprayed, eliminating the need for adjustments or changing of sprayer systems.
- Utilizes circuit breaker instead of fuses, protects operator and eliminates the search for replacement fuses.

Reduces Material Costs

- The constant pressure provided eliminates wasted material from over spraying or losing your place when you stop to pump-up or refill a traditional can sprayer.
- It eliminates the need to fill up can or bottle-type sprayers, reducing the chance of spillage.
- The self-purging feature eliminates left over product being left in the hose.
- Pressure sensitive switch shuts off pump when you stop spraying to prevent bursting hoses, product separation or damage.

Features

- All steel construction for durability
- Large rubber feet for stability
- Chemical resistant diaphragm and seals in pump and reel
- Utilizes a circuit breaker instead of fuses
- Pressure sensitive switch*
- Ships fully assembled

*This feature can be by-passed with our pressure activated re-circulator to continuously re-circulate and mix the product you are spraying.

MULTIPLE POWER OPTIONS AVAILABLE

- 115V AC includes standard 9 ft. (2.7m) power cord
- 230V AC includes standard 9 ft. (2.7m) 'EU style' power cord
- 12V DC includes standard 25 ft. (7.6m) power cord w/ battery clamps

COMPLETE SPRAY CONTROL KIT INCLUDES:

- 1 - spray control gun with comfort grip handle, quick connect fittings AND spray tip storage
- 1 - 18" (45.75cm) straight brass wand section
- 1 - 18" (45.75cm) curved brass wand section
- 4 female fan tips - 0.1gal per minute, 0.2gal per minute, 0.5gal per minute, 1gal. per minute
- 2 adjustable brass nozzles - 1 fan and 1 cone
- 100' (30.5m) safety yellow 3/8" (0.95cm) chemical-resistant hose with quick connect open flow fittings

NEW!

The Telescoping Spray Lance extends your reach up to 40' (12.2m) and ships completely assembled with a 1gal. per minute fan tip and an adjustable fan nozzle.

REAL PUMP *EXPRESS*

POWER SPRAYING SYSTEM

Manufactured by:
progressivesolutions
corporation

Agriculture Solutions

- Portable & compact with BIG spraying power
- Fits on almost any container
- Easily mounts anywhere with multiple suction hose ports
- Easy to clean
- Reduces labor costs
- **Versatile: designed to spray:**
Stains · Deck Sealers & Cleaners · Bleach Solutions · Acids*
Fertilizers · Pesticides · Herbicides · Cleaners · Concrete Sealers
Form Oils & Other Release Agents · Curing Compounds*

**Special wands required for acid.*

**Includes white wax cures, high viscosity & high solids products.
The Product Recirculator (PN: 67000) should be used.*

*Easily Mounts with
4 pre punched holes!*

THE REAL PUMP *EXPRESS* ADVANTAGE

With the power of the original REAL PUMP power spraying system, The REAL PUMP *EXPRESS* is a compact, easily mountable pump designed to replace gas engine powered and pump up sprayers. This pump is available in 6 different, fully assembled kits, or configure your own pump from 9 different styles. It easily sprays from any container including 1, 5, 55 or 275 gallon sizes. Need to mount the pump? The unit has standard-size bolt holes and multiple suction hose ports for easy mounting to anything from walls, dollies, trucks, equipment and more.

AC Standard Kit shown.

THE REAL PUMP *EXPRESS* COMPLETE KIT

Available in standard or corrosion-resistant styles,
Each RPX kit includes:

- Option of: 12V DC, 120V AC OR 230V AC POWER
- 25 ft. chemical-resistant hose
- 2 wand extensions
- 1 control gun & tips.*

**Wand extension, gun controls and tips are either Standard or Corrosion-Resistant.*

Standard Push-On Express Wand & Tip Kit:

- 1 - 18" brass straight wand, 1 - 18" brass curved wand
- 1 - control gun with brass barb end, 1 - 1.0gpm brass fan tip
- 1 - 0.5gpm brass fan tip

**DRUM NOT INCLUDED.*

Corrosion-Resistant Express Wand & Tip Kit:

- 1 - 12" poly straight wand, 1 - 18" poly curved wand, 1 - poly control gun, 1 - poly tip kit: 1 - 0.25gpm, 1 - 0.33gpm, 1 - 0.50gpm, 1 - adjustable cone nozzle

POWER SPRAYER KITS

PN: 69100

REAL Pump Stock Wand Kit Includes:

- 1-18in. Curved Brass Wand, Male
- 1-18in. Straight Brass Wand Extension
- 1- 0.1 gpm 80 deg. Brass Fan Tip, Female
- 1- 0.2 gpm 80 deg. Brass Fan Tip, Female
- 1- 0.5 gpm 80 deg. Brass Fan Tip, Female
- 1-1 gpm Brass Fan Tip, Female
- 1- Adjustable Brass Cone Nozzle, Female
- 1- Adjustable Brass Fan Tip, Female

PN: 69104

The REAL Pump Poly Shutoff and Wand Kit Includes:

- 1-18in. Curved Poly Wand, Male
- 1-12in. Straight Poly Wand, Male
- 1-Poly Shutoff Assembly w/Male Quick Connect
- 1-Adjustable Poly Cone Nozzle, Female

PN: 69106

Standard Push-On *EXPRESS* Wand & Tip Kit Includes:

- 1-18in. Brass Straight Wand Extension
- 1-18in. Brass Curved Wand, Male
- 1-Control Gun with Brass Barb End
- 1-1.0gpm Brass Fan Tip
- 1-0.5gpm Brass Fan Tip

PN: 69107

Standard Quick Connect *EXPRESS* Wand & Tip Kit Includes:

- 1-18in. Brass Straight Wand Extension
- 1-18in. Brass Curved Wand, Male
- 1-Control Gun with Quick Connect End
- 1-1.0gpm Brass Fan Tip
- 1-0.5gpm Brass Fan Tip

PN: 69108

Corrosion-Resistant *EXPRESS* Wand & Tip Kit Includes:

- 1-12in. Poly Straight Wand Extension
- 1-18in. Poly Curved Wand, Male
- 1- Poly Control Gun with 3/8" Hose Barb
- 1-Poly Tip Kit including: 1-0.25gpm, 1-0.33gpm, 1-0.50gpm
- 1-Poly Adjustable Cone Nozzle

RECIRCULATOR KIT- PN: 67000

The pressure activated re-circulator is a must-have for spraying products that need continuous circulation. Designed for power sprayers, it has durable all brass construction and 2 (two) 5/8" hose clamps for installation.

PN: 69101

100 ft. Hose Extension Kit

PN: 69102

100 ft. Hose Replacement Kit

50 ft. Hose Extension Kit

PN: 69105

25 ft. Hose Extension Kit

TELESCOPING SPRAY LANCES

PN: 64225

8'-24' Adj. Spray Lance - Green

PN: 64235

6'-12' Adj. Spray Lance - Green

This 8lb. (3.5 kgs.) adjustable spray lance makes extended height & distance applications easy to reach up 40 feet (12.2 m). Each lance includes:

- Composite Fiberglass, telescoping pole
- Interchangeable, quick connect spray tips:
 - 1 gpm 110 deg. fan tip
 - Adjustable Cone nozzle
- Large, comfort grip spray control handle
- High impact, fully adjustable plastic spray tip holder
- Heavy duty chemical/crush resistant hose

INJECTOR KIT- PN: 68000

Designed specifically for injecting chemicals, soaps and KLEEN KOTE into the water of your power washing system, this injector threads on to the high pressure or output side of your pump. It has 2 (two) adjustment knobs, 8 feet of chemical resistant vinyl hose and all solid brass fittings.
