Agriculture Solutions

THE KLEEN KOTE ADVANTAGE

KLEEN KOTE is a biodegradable protection agent formulated with corrosion-inhibitors to withstand the demands of the job. When mixed, KLEEN KOTE creates a thin, colorless barrier on the surface of the equipment or tools. Designed for use on all types of surfaces, it prevents buildup, revives and brightens paint and protects against the threat of corrosion. Protect and preserve your equipment and tools AND extend its useful life during use, storage, transit and seasonal lay-ups. This product is non-staining, non-toxic and won't contaminate the ground or agricultural products, making it the environmentally-safe choice in protection.

Proven Protection Solution

Originally designed for the construction industry, KLEEN KOTE has now been field-tested and proven successful in the agriculture market. It works by penetrating into the cracks and pores of the surface and filling them in—preventing buildup of fertilizers, debris, dirt, mud, salt and diesel exhaust as well as corrosion caused by use, the environment and storage.

KLEEN KOTE also eliminates the need for harsh soaps, detergents, wax or rubbing compounds. It brightens and revives old, faded paint; it preserves new paint and is safe for use on all surfaces including electrical controls and wiring.

Available Sizes:

- 1 gallon
- 4-1 gallon case
- 3.5 gallon
- 4.5 gallon
- 5 gallon
- 55 gallon
- 275 gallon tote

**KLEEN KOTE cannot be applied in the rain, snow or ice & must flash off before exposed to rain, snow or ice.*

KLEEN KOTE Works To:

- Repel: Fertilizer, Debris, Dirt, Mud, salt and diesel exhaust
- Revive/Brighten Paint on Antique Equipment -- Protect/Preserve New Paint
- Prevent Corrosion to Equipment & Tools
- Prevent Sticking/Bulidup on Hauling & Spreading Equipment

CERTIFIED BIODEGRADABLE AND LOW V.O.C. 13-17 g/L

Easy and Safe To Use

- ✔ Just add 1/2 the required amount of water. the required amount of KLEEN KOTE, add remaining water and it is ready to use.
- ✔ Safe for use on all surface types: wood, metal, plastic, foam, rubber, glass motors, electrical wiring.
- ✔ It is not harmful to the touch, requiring NO special equipment, clothing or tools for handling, application or storage.

Environmentally-Friendly

- ✔ KLEEN KOTE is free of any silicones, phosphates or solvents.
- ✔ Certified biodegradable, water-based and non-staining.
- ✔ It will not contaminate the treated surface or any untreated surface including the ground and agricultural products. Ships in concentrate form to reduce packaging and transportation waste.

Economical

- ✔ Fully water-adjustable, allowing for various types of applications.
- ✔ The concentrate reduces costs--allowing you to mix on an as-needed basis, 5 gallons of concentrate will make 60 gallons of product
- ✔ at a ratio of 11 to 1.

Durable Protectant

- ✔ KLEEN KOTE will not rinse off in rain* and It withstands the severity of the environmental conditions, the demands of use in all types of weather AND holds up for the duration of exposure.

Extension of Product Life

- ✔ It protects and preserves against the potential threats caused by atmospheric damage and corrosion, corrosive environments and contaminants.
- ✔ KLEEN KOTE brightens and revives paint on old/antique equipment and protects the paint of new equipment.
