

## THE KLEEN KRETE ADVANTAGE

KLEEN KRETE™ is a specially formulated product that effectively removes hardened cement powder and soluble salts from your cargo hold and vessels. It is safe for use on: aluminum, steel, chrome, glass, paint, rubber and most other surfaces when used according to directions. It does not require any special application equipment and will significantly reduce cleanup and preparation times. As an added benefit, KLEEN KRETE™ will reduce your waste water disposal costs by reducing the amount of water needed for cleanup when used as recommended. Make preparation for your next cargo load or for the repainting of surfaces quicker, safer and easier for your crew AND vessel.

Soluble salts and improper preparation are the leading cause of premature paint failure and corrosion. Cleaning and prepping the holds of your vessel between cargo loads should not be a time consuming or an unnecessarily labor-intensive task.

That is why KLEEN KRETE™ has been specially formulated to be safe for your crew yet extremely effective. It can be used full strength or diluted to suit your needs.

### KLEEN KRETE™ REMOVES:

- Cement Powder
- Hardened Concrete
- Soluble Salts

### WITHOUT THE USE OF:

- Strong & Dangerous Acid
- Special Equipment
- Scraping
- Hammering

### Environmentally Friendly

- ✔ It is a biodegradable, eco-friendly concentrate that is safer than conventional methods of removing cement powder, hardened concrete and soluble salts.

### Easy to Use

- ✔ KLEEN KRETE™ is packaged ready-to-use and can be sprayed, brushed or rolled on without the use of special equipment.

### Economical

- ✔ Reduces the amount of labor and water needed to remove cement powder, hardened concrete or soluble salts.
- ✔ It is packaged ready-to-use without the need for special application or clean up equipment.
- ✔ KLEEN KRETE™ can be diluted in some applications.

### Non-Hazardous

- ✔ KLEEN KRETE™ is safer for your employees and the environment than conventional acids.

### Safe for Use on Most Surfaces

- ✔ KLEEN KRETE™ will not harm aluminum, chrome, electrical systems, glass, paint, rubber and most other surfaces when used according to directions.

### Available sizes:
